Career Objective

Information Technology student with strong foundations in programming, databases, and web development seeking an opportunity to contribute to real-world software solutions. Eager to apply technical skills, problem-solving abilities, and continuously learn emerging technologies in a professional environment.

Education

B.Tech in Information Technology	2023 – 2027 (Expected)
M. Kumarasamy College of Engineering, Karur, Tamil Nadu	
CGPA: 7.6	
Higher Secondary Certificate (HSC)	2022 – 2023
P.A. Vidya Bhavan, Karur, Tamil Nadu	
Percentage: 83.1%	
Secondary School Leaving Certificate (SSLC)	2020 – 2021
P.A. Vidya Bhavan, Karur, Tamil Nadu	
Percentage: 80.0%	

Areas of Interest

Full-Stack Development, Artificial Intelligence, Database Management

Technical Skills

Web Development: HTML5, CSS3, JavaScript (ES6), Bootstrap, MERN Stack, MySQL, SQLite
Programming Languages: Python, Java, C
Tools & Platforms: Git, GitHub, Linux, Render, Figma, Canva, XAMPP
Core Concepts: Object-Oriented Programming, Operating Systems, Data Structures, REST APIs

Soft Skills

Problem Solving, Time Management, Team Collaboration, Adaptability, Leadership, Critical Thinking, Professional Ethics, Communication Skills

Projects

AutoQuizzer: AI-Powered MCQ Generation Platform	AI/ML, React, Node.js, SQLite
- Developed an AI-powered platform to generate MCQs using NLP models such as BART and T5. - Built backend modules using Node.js and SQLite for efficient data handling and application functionality. - Implemented automated evaluation workflows and user performance tracking features.	
Crime Record Management System	Flask, SQLite
- Developed a secure web application to manage crime records using Flask and SQLite. - Implemented role-based access control to protect sensitive data and manage user access. - Created RESTful APIs and interactive dashboards for efficient record management.	
AI-Powered Tamil OCR System	Flask, Deep Learning
- Developed a web-based OCR system using CNN models to recognize handwritten Tamil text. - Integrated deep learning models with Flask for real-time text recognition and prediction. - Implemented secure user authentication and a dashboard for managing OCR results.	

Achievements & Certifications

- Presented a paper at the IEEE Conference (5th ICECMSN) - Autoquizzer
- Received Dr. Kalam Young Achiever Award 2025 - Medcard
- NPTEL (IIT Kharagpur): Internet of Things (2024) - 79%
- Oracle Cloud Infrastructure: AI Foundations Associate (2025)
